INFORMATION FOR CUSTOMERS IN UK COSTA STORES

We cannot guarantee that our food or drinks are allergen free.

Due to the use of shared equipment in the display, preparation and service of our products there is a risk of cross contamination.

This guide is designed to provide customers who have a food allergy, a food intolerance or coeliac disease with accurate information about our food and drinks, so that you can make an informed choice about the suitability of our products.

Allergen safety in our stores:

- While we take every precaution, our busy store environments mean that we cannot guarantee that our food and beverage products are allergen-free due to shared equipment and a risk of cross-contamination
- If your allergy is severe, products that are handcrafted by a barista or handled in store may not be suitable for you
- It is important that you declare your food allergy so our baristas can follow the relevant process

Allergen Information:

- For drinks made in store and unwrapped products (e.g. cakes and pastries), allergen information is contained in this guide
- For pre-packed food and drinks, allergen information is provided on the packaging labels and/or in this guide
- Vegan products may not be suitable for people with food allergies or intolerances

Barista-made Drinks:

- Some barista-made drinks contain ingredients (e.g. sauces or toppings) that include dairy . This means they cannot be made dairy free, even with a dairy alternative. Check this guide for further information

The information in this guide is provided to help inform your decision. As you know your allergy best, the final decision on whether a product is suitable for you remains with you.

CONTENTS KEY	
YES	The allergen is present in the product
C	Although this allergen is not an ingredient of the product, it is present in the manufacturing site / factory / supply-chain and therefore there is a risk of cross-contamination
N	The allergen is not an ingredient of this product
YES NO	The column entitled 'Dietary Choices' details information supplied by the product manufacturer. It does not take into account the in-store storage / preparation methods where there is a risk of cross-contamination
The allergens listed in this guide are those we are required to declare in accordance with EU Food Information Regulations	

NOTES

- The drinks in the document show the allergen and nutrition information for the drink as served, made to the standard recipe, using semi-skimmed milk, unless otherwise stated
- If you wish to customise your drink by using a different milk or dairy alternative, adding syrups, changing a topping, etc, please use the 'Drinks Extras and Ingredients' section at the end of the guide
- Some of the ingredients used in our drinks may contain sugar or sweeteners
- If you require additional information, please ask a member of the team

NUTRITION INFORMATION

- Please note that all our drinks nutrition information has been calculated using published nutrition data and that dairy-based drinks may be subject to some natural seasonal variation
- Nutrition is calculated for Signature Roast Blend (caffeinated) made to brand standard.

COSTA INFORMATION ON CAFFEINE AUTUMN 2026.

INFORMATION FOR CUSTOMERS

- Caffeine naturally occurs in coffee beans and as with any natural products, levels can vary depending on origin, variety, climactic and growing conditions
- The caffeine content in the finished coffee varies widely depending on the type of coffee bean in the blend and the method of preparation used
- Our Signature Blend is a blend of several origins. The level of caffeine variation driven by beans alone would be more significant than in a single origin coffee
- In addition, grind size, water temperature, length of extraction will all have an impact on caffeine level in the final drink. The longer the extraction, the more caffeine is extracted from the beans
